EXAMINER'S STATEMENT FOR REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Terminal disclaimer filed 8/27/04 places the application in condition for allowance. The double patenting rejection in the previous office actions have been withdrawn. The prior art made of record fails to explicitly disclose or reasonably suggest a variable optical attenuator with a connecting member attached to a rear end of a stationary housing and defining an internally-threaded bore, a tubular knob having an external thread of a first screw pitch, and an internal thread with a second screw pitch that are different from each other wherein rotating said knobs displaces an optical fiber corresponding to the sum of the first and second linear displacements of the holder. Furthermore, a biasing element is radially arranged to urge the ferrule holder forward in a stationary housing with a clip that abuts against a rear end of a biasing element. Therefore claims 1, 10, and 19 are allowed. Claims 3-4, 6-9, 11-13, and 15-18 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Wong whose telephone number is 571-272-2363. The examiner can normally be reached on Monday through Friday, 830AM - 430PM.
